Analysis:

After reviewing the Student Satisfaction Survey for the year 2021-2022, there are two areas to be improved and concentrated for the next academic year. They are:

1. To organize more internship, field visits and academic visits for students in order to allow them more exposure to the industry and the 'outer' world. This shall help them bridge the gap between classroom teaching and actual practice. In fact, because of Covid 19 restrictions, very few field visits/study tours were possible.
2. Faculties will be encouraged to incorporate more ICT tools in direct classroom teaching.
