Understanding Gender Equality

Gender equality is a critical issue to be addressed in any HEI. Gender equality can be achieved when all employees are able to access, enjoy and take advantage of the same amount of rewards, resources and opportunities irrespective of their gender.

Our college strives hard and sincerely to attain gender equality. For the purpose, following things are required:

- * Removal of barriers and hurdles to achieve complete freedom;
- * Equal participation of women in the workforce;
- * Access to all occupations and classifications, including leadership roles, for women and men;
- * Elimination of discrimination on the basis of gender, particularly in the campus;
- * To create gender equality awareness among students;
- * To develop gender sensitivity and awareness drives among the students of the college

Achieving gender equality is important for Uma Arts & Nathiba Commerce Mahila College, Gandhinagar not only because it is 'fair' and 'the right thing to do', but also because it is important to achieve social, academic, political and cultural parity.

Benefits of workplace gender equality

Gender equality provides equal opportunity to all men and women to strive, grow, nurture, aspire and achieve. It fosters enthusiasm and warmth among women employees to work with more efficiency and quality.

It helps attract brilliant minds, provides them with space and platform to excel. Men and women employee can work freely and coherently which proves to be fruitful to the institute. Such an atmosphere enhances and increases efficiency of workforce, organizational performance and coordination.

Gender equality helps to minimize legal risks and reduces sex discrimination at workplace. They will also reduce negative impact of discriminatory behaviour which adversely affects overall performance of the institute. Gender equality is not just about making workplaces 'women friendly', rather is it also about men as well. Men with girl-child have women workers at their workplace and fathers see their role not simply as breadwinners but also as active role-players in developing gender equality.

Our institute, Uma Arts & Nathiba Commerce Mahila College must reflect and respond to gender equality within the community, by serving and giving equal opportunity to each and every class, caste and gender.

Gender Equality Programmes and Activities

Being women's college, we have developed a natural tendency to support women in all endeavours as well to develop alternative discourse from women perspective and organize various programmes accordingly. In all matters of the institution, viz., academic or administrative, all female staff can transparently and fearlessly present their opinions, arguments, objections and decisions. All academic committees are gender-balanced with equal participation from men and women employees. The college thereby has developed healthy workplace culture where women can voice their opinions freely.

The staff room atmosphere is enthused with democratic environment into which all the policy related decisions are taken after thorough discussions among all the staff members. The college firmly supports the policy of inclusive workplace culture where all employees are valued and included which results in a more engaged, motivated and productive work environment.

Gender Equality Action Plan has been developed to provide a framework for identifying and addressing the remaining barriers to women's inclusion and progression at the college campus.

The Action Plan will help us, through the years to come, to navigate and accelerate the gender equality journey that our college must take to improve the engagement, retention and advancement of female staff.

In adopting and implementing this Gender Equality Action Plan, the college demonstrates how it values the richness of diversity amongst its staff, and recognises its responsibilities to take college-wide transformative actions to enhance inclusion for all.
