Feedback for 2023-24

Analysis and Remedies:

After reviewing Feedback for the year 2023-24, the areas that need attention for the next academic year are here under

1. As there is a dearth of academic (teaching) and administrative staff owing to retirements and lack of new recruitments by the state authorities, the college, despite making best of efforts, fails to address the issue of academic, field and industrial visits, despite the fact that various departments have undertaken this initiative. Hopefully the government has initiated a process of academic recruitment and in the next couple of years the shortcoming of visits for all-inclusive growth shall be resolved.
2. The college administrative office staff has retired following age restrictions and despite a lot of representations, there are no recruitments by the government. The college tries its best to fill in this gap by sharing administrative duties among teaching staff members. The Management has also taken one stride further by appointing two persons on ad-hoc basis to support smooth functioning of the college.
3. As hostel accommodation is limited and demand for hostel accommodation is very high as students from all over Gujarat seek to take admission here, all hostel seekers are not admitted. Yet request to increase intake has been sent to respective authority.
